- **Programming Languages:** C/C++, Python, MySQL, JAVA, React, NodeJS.
- **Tools and Technologies:** Git, Canva, Visual studio, Android Studio.
- **Core Competencies:** Operating System, Computer Network, Computer System Architecture, Data Structure and Algorithm, Algorithm Design, Organization, and time management.

EDUCATION

Shri Shankaracharya Institute of Engineering and Technology (Present) **Raipur, Chhattisgarh**
*Bachelor of Technology in Computer Science and Engineering- **CGPA 7.718*** *Sept 2023 – Aug 2027*

Mar Gregorios Memorial Higher Secondary School **Raipur, Chhattisgarh**
Senior Secondary (Class XII), Science Stream– 69% *Year of Completion: 2023*

Mar Gregorios Memorial Higher Secondary School **Raipur, Chhattisgarh**
Secondary (Class X) – 70% *Year of Completion: 2021*

PROJECTS

Jewellers E-Commerce Website

◦ Developed a jeweller's website during vocational training using HTML, CSS, and Bootstrap. ◦ Implemented product showcase pages with responsive design to display various jeweller's items.

◦ Focused on UI/UX, layout structuring, and front-end development practices.

Medi Guru – Virtual Medical Training Platform (Govt. of Chhattisgarh)

- Built Medi Guru, a React-PHP-MySQL portal for managing virtual medical training for Govt. doctors under CMHO Raipur.

Smriti Pustakalaya

- Developed a Digital Library Donation Platform for the Government of Chhattisgarh to enable seamless donation and access of e-books and study materials.

Café Management System

- Developed a Café Management System with sections like Home, Menu, Cart, and Payment, providing a complete digital ordering experience.
- Integrated frontend (HTML, CSS, Bootstrap) with backend REST API to manage orders, cart data, and payment processing seamlessly.

Enhance the CRUD Operation with File I/O

- Enhanced a CRUD application by integrating file I/O operations to store and retrieve task data persistently.
- Improved data management by enabling read/write functionality, ensuring tasks remain saved even after program termination.

Voice Control Robot with Arduino

- Designed and implemented a voice-controlled robot using Arduino, integrating motor drivers and sensors for movement control.

CERTIFICATION

- Web Development Course - Skyvo (45 days)
- Software Development Course - Cognifyz (1 month)
- CODE2X Competition Participation – SSIPMT College
- NPTEL - Cloud Computing
